Some everyday products, like e-cigarettes and aerosol spray starch, can be dangerous when transported on the aircraft in carry-on and/or checked baggage. Some Lithium batteries (e.g. spares in checked baggage, batteries over a certain size), Explosives / Fireworks, Strike anywhere matches/ Lighter fluid, Compressed gases / Aerosols Oxygen bottles/ Liquid oxygen, Flammable liquids, Pesticides/ Poison, Corrosive material.

There are special exceptions for small quantities (up to 70 ounces total) of medicinal and toilet articles carried in your luggage, spare lithium batteries for most consumer electronic devices in carry-on baggage, and certain smoking materials carried on your person.

Certain items are required to be carried with you onboard the aircraft. For example, spare lithium batteries for portable electronic devices, cigarette lighters and e-cigarettes must be removed from checked or gate-checked baggage and carried onboard the aircraft. However, e-cigarettes may not be used on-board the aircraft.

Traveling with medical oxygen, liquid oxygen, mobility aids and other assistive devices may require airline pre-approval or be restricted from carriage entirely. Passengers requiring these items should contact the airline operator for information on use of such devices.
